

**CITY OF MEMPHIS – STANDARD CONSTRUCTION SPECIFICATIONS  
SECTION 01570 TEMPORARY CONTROLS**

**PART 1 – MAINTENANCE OF WATER COURSES AND SURFACE DRAINAGE**

1.01 Where the Work contemplated in the Contract intercepts or in any way affects any stream, ditch, drain, or culvert, the Contractor shall, where necessary, arrange for keeping the same open by rebuilding, repairing, or extending the same or by building drains, culverts, or other structures of approved materials. Unless otherwise provided for in the Plans and Contract Documents, the expense to the Contractor in fulfilling the obligations of this Section 01570 are incidental to the Contract, and no extra compensation will be allowed.

**END OF SECTION 01570**
