

**CITY OF MEMPHIS – STANDARD CONSTRUCTION SPECIFICATIONS
SECTION 02510 WATER SERVICE LINE ADJUSTED TO NEW GRADE**

PART 1 - SCOPE

This work shall consist of the construction of water service lines adjusted to new grades as directed by the Owner in addition to the adjustments provided by Memphis Light Gas & Water.

PART 2 - MATERIALS AND EQUIPMENT

2.01 MATERIALS.

All materials shall be subject to sampling, testing, and approval or rejection by the Owner. Unless otherwise specified, all materials shall be new and unused in previous construction. Used materials in acceptable condition may be used for bracing, forms, framework, and similar uses.

2.02 EQUIPMENT.

A. The equipment provided by the contractor shall include hoisting equipment capable of handling and placing the pipe in final position without damage to the pipe. Mechanical tamps shall also be provided.

B. All of the above equipment, as well as any additional equipment necessary for the satisfactory performance of this construction shall be on the project and approved by the Owner before work will be permitted to begin.

PART 3 – MEASUREMENT

3.01 WATER SERVICE LINE ADJUSTED TO NEW GRADE.

Water service line adjustments will be measured per each adjustment.

PART 4 – PAYMENT

4.01 WATER SERVICE LINE ADJUSTED TO NEW GRADE.

Acceptable quantities of water service line adjustments to new grade will be paid for at the contract unit price per each adjustment, which price will be full compensation for excavation, removal of old service line and appurtenances, furnishing and construction of new service lines, connections to existing service lines and appurtenances to remain, and backfilling, complete in place.
